EDUCATION

UBIT, Karachi University

Bachelor of Science in Software Engineering

Karachi, PK

Dec. 2022 – Present

Bahria College (NORE-I)

Intermediate in Pre-Engineering

Karachi, PK

Aug. 2020 – July. 2022

Hydery Public School

Matriculation in Science

Karachi, PK

March. 2020

EXPERIENCE

Freelance Full Stack Developer

2023 – Present

Fiverr & Upwork

Remote

- Delivered 5+ client projects including e-commerce sites, dashboards, Rest Apis and full web applications
- Built responsive and dynamic frontends using React.js, Next.js, TypeScript, Tailwindcss and Redux
- Developed backend systems and REST APIs using Node.js, Express.js and Django
- Managed end-to-end project delivery including client communication, requirements gathering and deployment

Full Stack Developer (Internship)

June 2025

Local Software House

Karachi, PK

- Worked on an e-commerce platform and developed a real-time GPS location tracking system using Google Maps API
- Built add-to-cart functionality with a sliding drawer UI
- Added and improved existing API routes and wrote documentation for the development team
- Contributed to the e-commerce platform's mobile app using React Native with Expo

PROJECTS

AI Company Wide Assistant | *Flask, React, FAISS, BM25, Redis, OpenRouter, Watchdog*

- Built a multi-domain RAG chatbot covering 7 departments with a two-stage intent router using keyword scan and embedding similarity for zero-cost query classification
- Implemented hybrid retrieval pipeline combining BM25, FAISS vector search, Reciprocal Rank Fusion, and cross-encoder neural re-ranking for high-precision answers
- Added real time token streaming via SSE with source citations.
- Built a zero-downtime document refresh pipeline with filesystem watching, debouncing, and live hot-swapping of FAISS and BM25 indexes without server restart
- Redis-backed session persistence with sliding TTL, supporting multi-worker deployments

Digital Marketplace | *Next.js, Stripe, Resend, MongoDB, Prisma, Shadcn/ui*

- Developed a digital marketplace for purchasing downloadable products with secure Stripe payment integration
- Built an admin dashboard for managing products, customers, sales analytics and order tracking
- Implemented email order confirmations with product details and download links for customers
- Added order summary lookup allowing users to retrieve purchases and download links via email

Project Management app | *GraphQL, Apollo Client, React, Express, MongoDB*

- Developed a full-stack project management application for managing clients and their associated projects
- Built client management functionality to add and store essential client contact information
- Implemented project creation, assignment, updating, and deletion features linked to specific clients
- Integrated GraphQL with Apollo Client for efficient data fetching, mutations, and state management

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C/C++, Java

Frameworks & Libraries: React.js/Next.js, Node/Express, Django, FastAPI, Redux, Shadcn, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB, Supabase, Pinecone/FAISS

AI & LLM: RAG (Chatbot development), Local LLMs, Agentic AI(LangChain/LangGraph)

Developer Tools: Git, Docker, Jenkins (CI/CD), AWS, Vercel/Netlify, Postman
